Стр.: 1642-1644

Опубликовано: 2013

Тип документа: Proceedings Paper

Аннотация:

The article covers general features of RSS feed - widget Multimedia portal based on <http://www.netvibes.com> hosting and software provider, which is free and can be easily converted, designed and used for Translation Studies teaching (for any oral and written translation trainings with any choice and number of languages at the same time on the same page!) within online eLearning course or a Blended one, both in class and out of class. It also outlines useful practical example on how to use it for efficient online oral translation techniques training.

Such multimedia feed widget portal can be easily applied for any comparative linguistics, foreign languages or translation study, especially by the teacher practicing Blended collaborative online eLearning innovative pedagogy in Higher Education, focused on flipped, mobile teaching strategy.
