**Аннотация:**

Noting that one of the reasons of global crises in the world is world outlook crisis. The historical outlook and moral and ethical basic values which are the cornerstone of pedagogical experience of generations as sources of outlook and ethics of the teacher in Russia are analysed. In turn pedagogical activities for transfer from generation to generation saved up outlook, moral and ethical and professional practical experience contributed to the development of outlook ethics of the teacher.

**Ключевые слова:**

Climatic environment, Education, Evolution of pedagogics, Outlook and ethics of the teacher
