Proceedings - 2018 International Conference on Engineering Technologies and Computer Science, EnT 2018

25 July 2018, Номер статьи 8420111, Pages 41-46

2018 International Conference on Engineering Technologies and Computer Science, EnT 2018; Moscow; Russian Federation; 20 March 2018 до 21 March 2018; Номер категории CFP18O02-ART; Код 138184

Аннотация:

Russian Virtual Computer Museum (RVCM) has been steadily becoming more and more famous, both in Russia and worldwide, for last twenty years - the RVCM site maintains English language version as well. From 1.5 to 2 thousand people visit the RVCM site daily. Besides collecting and processing historical materials on computing and informatics RVCM regularly organises international conferences and publish books on the history of computer and information science. In comparison with other computer (on-line) museums RVCM possesses most comprehensive digital on-line collection of articles, books, individual memories and other materials on the history of Soviet computing.
